Experience

Clownface Travel Pvt. Ltd, Gurugram

June 2023 – Present

UI Developer

- Design and develop user interfaces for websites and booking systems.
- Optimize user experience through usability tests and continuous improvements.
- Ensure cross-platform compatibility for seamless user interaction across devices and browsers.

TogetherV, Noida

Nov 2021 – June 2023

Frontend Developer

- Responsible for UI development for TogetherV website to improve overall customer experience while making any order from the website.
- Created a complete UI and UX design for an e-commerce website, including visual designs, animations, and process flow. The resulting design was highly engaging, user-friendly, and optimized for sales conversion.
- Built efficient CRM system using Zoho platform and API integrations for streamlined customer management and lead generation.

Abylytics, Mumbai

Sept 2021 – Nov 2021

Frontend Developer Intern

- Designed, developed, and implemented several WordPress websites from scratch.
- Worked with WordPress & WooCommerce to manage stores and product listings for e-commerce websites.
- Integrated payment systems, delivery systems, and shipping options, ensuring a seamless buying experience for customers.

Projects

Revamped Anti Corruption Bureau Website, Maharashtra | 🔗 [Live](#)

🔗 [Figma Link](#)

- Led the conceptualization and implementation of an enhanced website flow to elevate user experience.
- Established a comprehensive design system and crafted UI designs using Figma to ensure consistency and visual appeal.
- Executed the full frontend development utilizing HTML, CSS, Bootstrap, and JavaScript.
- Ensured seamless user interaction across devices and browsers through the development of a fully responsive design.

Currency Converter App 🔗 [Live](#)

- Engineered a Realtime Currency Converter Application leveraging currencyapi.
- Architected and implemented both frontend and API integration with precision using JavaScript.
- Empowered users with the ability to select a base currency and seamlessly convert it into another currency.
